Having problems steaming Milk hot?

Use Milk flow restrictor (part #26151) to steam Milk Hotter
Eliminate Milk Carafe. They are expensive and need frequent refilling, intense cleaning and replacement of damaged or lost rubber connectors. Use of Milk flow restrictor with 15" Silicone tube Order part # 26151-S15

The restrictore is not good for Pannarello frothers or other older Jura models in which frothers do not use a Milk container.

We see extensive Calcium deposits in almost every espresso machine we open for repairs.

Filter cartridges are preventative, expensive & ineffective as descaler.

The Brita filter installed on the kitchen faucet works better than expensive Jura filters.

Calcium sediment inside the machine cause the following problems:

- (1) reduces flow of water with full or partial clogging.
- (2) generate back pressure in the Hydraulic system & cause internal leaks.
- (3) reduce pump pressure, reduce flow of coffee & water for coffee collects in drain tray instead
- (4) Error codes "Fill water" or Ventilate will display & force expensive repairs.

Descaling is best done manually, every two or three months.

Order Best descaler (#DSC-6) from our online store for effective & authentic descaling.

Are you frustrated with your old Espresso machine that needs expensive repairs? You can fix the machine yourself but cannot find parts? (Jura & Breville DO NOT sell parts) Espresso machine is old (10 years or more) & you are ready to upgrade?

We recommend Saeco's Royal One Touch 120V

Super automatic home espresso machine. Convenient to operate, Easy to maintain, & program. Make Espresso Ristretto, Lungo, Americana, Macchiato, Cappuccino, as you like, at the push of a button. **Saeco after sale service & parts are easily available in USA.**

As Good As it Gets

Order one or Trade-in your old & expensive to repair Jura, Breville, Gaggia machines

It is worth it.
